E7

E7

Of You these lips will sing

For You these feet will dance

With You this heart will overflow

We join the loudest praise

And all together say

You are the God who came to save

A7

With the angels now

With the saints around

Join creation's sound

Singing all aloud

E7

We dance, dance, dance!

For You!

We dance, dance, dance!

For You!

E7

We sing about Your love

We sing about Your grace

We join the ancient songs of praise

The heavens cannot hold

Much less this sound contain

The Maker of all time and space
