Save Me

capo 3

Am F
I've been drifting now
For forty days
Wishin' that somehow
I could be saved
This whole ocean
It's got nothin' to say
But this whole ocean
It talks all day

Am F
Save me
Am F
Save me
C/E F
I'm a drifting man
C/E F
Lost at sea
C/E F
Parched and burned and cracked
C/E F
Can rescue be?

Am F
This raft is sinking
A little more each day
It would be useless
To plan my escape
This raft is sinking
So I watch and wait
And as the water rises
On my knees I pray

Chorus

Em F
With my last breath I will call
Will call your name
x4

Save Me

C F
I see a light on the horizon
C F
Reflected in the eastern sky
C
You said you'd come
F
And now you've found me
C F
I just raise my arms and cry

You saved me
You saved me
I was a drifting man
Lost at sea
Parched and burned and cracked
You rescued me
