Save Me

Cm Ab
I've been drifting now
For forty days
Wishin' that somehow
I could be saved
This whole ocean
It's got nothin' to say
But this whole ocean
It talks all day

Cm Ab
Save me
Cm Ab
Save me
Eb/G Ab
I'm a drifting man
Eb/G Ab
Lost at sea
Eb/G Ab
Parched and burned and cracked
Eb/G Ab
Can rescue be?

Cm Ab
This raft is sinking
A little more each day
It would be useless
To plan my escape
This raft is sinking
So I watch and wait
And as the water rises
On my knees I pray

Chorus

Gm Ab
With my last breath I will call
Will call your name
x4

Save Me

Eb Ab
I see a light on the horizon
Eb Ab
Reflected in the eastern sky
Eb
You said you'd come
Ab
And now you've found me
Eb Ab
I just raise my arms and cry

You saved me
You saved me
I was a drifting man
Lost at sea
Parched and burned and cracked
You rescued me
